Rebuilding East 9th St. Together
We have tomorrow Bright before us Like a flame.

Yesterday A night-gone thing. A sun-down name.

And dawn-today Broad arch above the road we came. We march!

The blind love of Creative Placemaking that is tied to the allure of speculation culture and its economic thinking of “build it and they will come” is suffocating and unethical, and supports a politics of dis-belonging employed to manufacture a “place.”

– Roberto Bedoya from his 2013 essay,” Placemaking and the Politics of Belonging and Dis-belonging”

Bob chaired the Cultural District Task Force.

The Task Force recommended hiring an Arts & Culture Director, developing a citywide cultural plan, and implementing the 9th Street Corridor Project.

The Arts Center and the City of Lawrence obtained a grant to enhance 9th Street into a "linear park" with walking and bike paths, lighting and public art, and connecting Downtown Lawrence with the Warehouse Arts District.

El Dorado Consulting will facilitate the 9th Street Project from the vision of the stakeholders to the conclusion. Art will be infused in the engineering from the Project's inception.

Bob will help the 9th Street Corridor Project reach a successful conclusion.
