National Endowment for the Arts

INTRODUCTION

About the National Standard:

The National Standard for Arts Information Exchange is a tool used by public arts agencies to organize and report information about their constituents and grantmaking activities. The National Standard itself is a set of terms, definitions, and guidelines for coding data that arts agencies need in their grants management systems, mailing lists, and resource directories. Designed to provide easy access to data that is consistent from state to state, information in the National Standard format can be used to document, plan, evaluate, and disseminate information about arts agency activities. The National Endowment for the Arts (NEA) uses the National Standard and requires state and regional arts agencies to follow these guidelines in their reporting. Many other local cultural groups and researchers voluntarily use the Standard as a model for managing information about the arts.

Since its original implementation, periodic revisions have been made to the National Standard to ensure its clarity, accuracy, and responsiveness to current information needs. The latest system revisions are documented in the April 2001 *National Standard Revisions Technical Implementation Manual: 2000-2003 Revisions Cycle*. Consult that manual, or contact the NASAA office for information on configuring your application forms and database systems to collect the required information.

About this Document:

This document describes the current National Standard guidelines. Each field required in annual Final Descriptive Reports (FDRs) is itemized, and we provide the terms and definitions arts agencies will need to follow in collecting information from their constituents and reporting to the National Endowment for the Arts. Also included are guidelines for agencies to use in preparation of their reports. This document is intended to be a handy reference tool covering only those parts of the National Standard that are required on annual FDRs. There are many additional, non-required, aspects of the Standard, and information about those other fields and terms may be obtained from the NASAA information services staff.

For Additional Help:

Your first point of contact for implementation assistance should be the NASAA office. The following kinds of consultation are available via phone, fax or E-mail: review of application, mailing list, and final report forms to ensure National Standard compliance; help with the construction of accurate and appropriate data collection questions and techniques; referrals to peer state agencies for information, models, and ideas; assistance with the development of new database file structures and report forms; and more information on the National Standard.

Review of application forms is a particularly important implementation step, since it allows you to prevent costly National Standard information collection errors before they affect your

grantees, staff, and computer systems. If you fax or express mail draft copies of your paperwork to NASAA, the research staff will check to ensure that all National Standard requirements are met and that all of your information follows federal guidelines. This free service is usually available on a same- or next-day basis.

Depending upon the availability of funds, Technical Assistance Workshops and individual agency site visits are other possible forums for training, consultation, and implementation help. For more information please contact the NASAA research staff.

- P Presenting/Touring:** Grants or services resulting in the movement of artists and artworks for performances, readings, screenings, exhibits, etc., in different geographic areas. Use this code to indicate funds awarded for either the hosting/presentation of works originating outside of the grantee community or for the fees paid to artists or arts organizations that will, themselves, be touring in different areas.
- T Technology:** Grants or services using technology for the creation or dissemination of artworks or the use of technology for organizational management purposes.

ARTS EDUCATION

Use this field to describe the arts education designation of each award, according to the following definition.

Arts Education: An organized and systematic educational effort with the primary goal of increasing an identified learner's knowledge of and/or skills in the arts with measurable outcomes.

01 50% or more of this project's activities are arts education directed to:

- A K-12 students.
- B Higher education students.
- C Pre-kindergarten children.
- D Adult learners (including teachers and artists).

02 Less than 50% of this project's activities are arts education directed to:

- A K-12 students.
- B Higher education students.

- C Pre-kindergarten children.
- D Adult learners (including teachers and artists).

99 None of this project involves arts education.

TIPS: Users should determine whether each grant record meets the definition of arts education as stated above. Grants not fitting the definition should receive a 99 code. For those grants fitting the National Standard Arts Education definition, the use of sub-codes A through D, indicating specific learning audiences, are required. If a project serves multiple groups of learners or the general public, main numeric codes used by themselves are acceptable.

Examples: A grant supporting the third grade classroom and curriculum development work of a sculptor in residence should receive the Arts Education code 01A. A program training teachers to integrate the media arts into high school civics classrooms should receive the code 01D. An award for a statewide dance tour that includes occasional master classes should receive the code 02.

Include actual audience numbers based on paid/free admissions or seats filled. Avoid inflated numbers, and do not double-count repeat attendees. If actual figures or reliable estimates cannot be secured, leave this field blank or enter a "-1" to indicate that data are not available.

ARTISTS PARTICIPATING

The total number of artists directly involved in providing art or artistic services specifically identified with the project. **Include living artists whose work is represented**, regardless of whether the work was provided by the artist or by an institution.

YOUTH BENEFITING

The total number of children and youth (including people under 18 years old, students, participants, and audience members) benefiting directly from the funded project. This figure should reflect a portion of the total number reported in the individuals benefiting field.

This field was added to the Standard to help identify projects with a focus on children and youth and to help quantify the public impact of arts education and other youth-oriented grant programs.

REPORTING CONVENTIONS

REPORTING TO THE NEA AND NASAA

Use the codes and fields described in this manual to prepare a complete report of all grants and programs your agency has funded in the past year. Your report (called a Final Descriptive Report or FDR) should be comprehensive and should provide details about all activities funded with any state, federal, or private money.

Your Final Descriptive Report is very important to the NEA and NASAA. We use it to analyze grant-making trends, promote the arts, respond to information requests from members and the public, and prepare publications on the arts and what state arts agencies do. In collaboration with the NEA, NASAA builds a database of National Standard information that describes public arts support. Every state and region participates in this national information networking system.

Once you have completed your Final Descriptive Report, send the materials to the NEA and NASAA.

Your NEA package should include your Financial Status Report and two collated copies of:

- The Totals Page.
- The Details Pages or Data Sequencing Form if using the Technology Option.
- [States Only] The Challenge America Report with narrative and photos.
- The Public Participation Addendum.

Your NASAA package should include:

- A disk containing an ASCII dump of all FDR data.
- A copy of your Totals Page.
- A copy of your Details Pages or data Sequencing Form if using the Technology Option.
- A copy of your Challenge America Report.
- A memo describing any unique formats or contents.

The diskette of your FDR data should be exported to ASCII delimited format. (This is a plain text file where each grant record appears on its own single line with commas or tabs separating the fields.) If an ASCII delimited format is not available, you may put your data in a spreadsheet, an Access file, or a dBaseIV file. If using a spreadsheet, we would prefer that each grant record appear on its own single row. Please avoid using word processing files for the data you send us on diskette, as they can not be easily prepared for importing into our database.

Notes

¹ Multiple selections are allowed for this field. Agencies may choose to put the multiple selections in one field or to put each selection in its own logic field. If each code is stored in its own field, the fields must be in the following order [A, I, P, T, Y] and inserted in the data dump after Activity Type and before Arts Education.

² Multiple selections are allowed for this field. Agencies may choose to put the multiple selections in one field or to put each selection in its own logic field. If each code is stored in its own field, the fields must be in the following order [A, B, H, N, P, W] and inserted in the data dump after Youth Benefiting and before Project Race.

³ Although not part of the National Standard, this field is required by the NEA. It contains an abbreviation to reference the kind of funding present in grant records where Other NEA Share is greater than zero. Consult NASAA's annual FDR instruction memo for a list of the required codes.

⁴ Indicates each agency's unique system of grant identification numbers. This field is not a National Standard requirement, but is encouraged because it helps NASAA and the NEA to quickly trace a record in the event of a question.

⁵ Indicates each agency's unique identification number used in its constituent list or mailing list database. A grantee's Federal Employer Identification Number (FEIN) may also be used. Although reporting this field to NASAA and the NEA is voluntary, agencies are strongly encouraged to include this information. It assists NASAA and the NEA with the integration of records into the Unified Database of Arts Organizations, linking information on grant projects to outside data sets offering financial and descriptive details on arts organizations funded by states and regions. Contact NASAA for more information.

⁶ If your agency has added optional codes to the Project Descriptors fields (described on page 12 of the Technical Implementation Manual), insert them at location 32 in the data dump. Text codes embedded in a single, consolidated field may be reported in any order. However, if your agency uses separate logic fields the following sequence must be used: [C] Cultural Heritage Tourism, [E] Economic Development, [H] Health/Healing and [O] Older Adults. When including custom codes not outlined on page XX, your data dump to NASAA must be accompanied by a key that lists all codes used and their corresponding definitions.

FOR THE ARTS**

**NATIONAL
ASSEMBLY OF
STATE ARTS
AGENCIES**

The work of NASAA and of state arts agencies is supported and strengthened in many ways through funding and programming partnerships with the National Endowment for the Arts. Production of this publication was supported through the NEA/NASAA Cooperative Agreement DCA01-26.

The National Assembly of State Arts Agencies is the membership organization of the nation's state and jurisdictional arts agencies. NASAA's mission is to advance and promote a meaningful role for the arts in the lives of individuals, families and communities throughout the United States. We empower state arts agencies through strategic assistance that fosters leadership, enhances planning and decision making, and increases resources.
