

### **Members and Former Members Solicited in NASAA's Year-end Campaign Mailing #1**

Below is a list of all members, former members and NASAA friends who were sent a letter as part of our year-end campaign mailing. The list is organized per each development committee's state.

We adapted and customized the letter based on the type of member and type of donor. If you don't see a current board member on the list it could be that we don't have a mailing address for them or our records need to be updated.

We also included a list of current donors from your state, so you can see who has given so far this year. The current donors listed did not receive a year-end campaign letter, nor will they receive email solicitations. Please feel free to reach out to them with a message of thanks if you so choose.

#### **Definitions:**

- "Not donors" includes people who have never given to NASAA
- "Lapsed donors" includes people who gave to NASAA two or more years ago
- "Renewal donors" includes people who gave last year, but haven't renewed their gift this year
- "Former members" includes former council members and EDs
- "Non members" includes artists, employees of state arts agency advocacy groups, or employees of an artist service organization
- "2022 current donors" includes people who have given to NASAA in 2022 so far. (They did not receive a letter, nor will they receive email solicitations.)
